{Roc.in.Doc® for iPhone® and iPod®} The power is in the palm of your hand... well, for as long as your iPhone or iPod can hold a charge. Byrne now makes it easier and more convenient than ever to charge, sync and listen to your iPod or iPhone with the Roc.in.Doc Docking Station. Available in many of Byrne Power/Data Centers, Roc.in.Doc accepts all iPhones and most iPods without the need for pesky, easy-to-lose adapters. Once docked, iPhones and iPods will charge and also have the ability to sync with a connected computer. Connect external speakers or headphones to either of the docks two 3.5mm audio jacks to get the most of your device. All required cables are included. To learn more, visit us at www.byrne-electrical.com

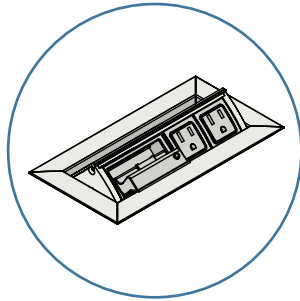

{Where It Works} The Byrne Roc.in.Doc can be added to the following Power/Data Centers.

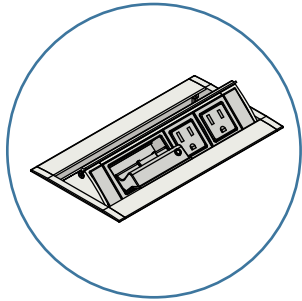

Assemble®

Axil® X

Mho®

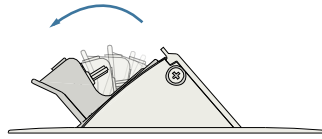

Ohm
