

P A L O M I N O

Compellingly classic with a sense of lightness rather than bulk, Palomino perches the seating surface on an angled base to define intimate spaces within open-plan environments. Palomino can be configured for all reception and lounge areas within a facility. A steel beam base is available with walnut, ash, brushed stainless steel or powder-coated legs. Inline and free-standing table tops are available in walnut, ash, stone, solid surface and a solid surface only.

# PALOMINO
