Q: *What benefits does the 12"W tower offer?*

A: With workspaces continuing to shrink, the 12"W tower provides a wardrobe and storage solution in a compact, aesthetically pleasing design.

Q: *Are there any requirements associated with the 12"W wardrobe tower?*

A: Yes. The tower must be mounted to either a panel using panel mounting bracket AP22PBKLH or AP22PBKRH or to a worksurface using worksurface mounting bracket ETB2W1.

Q: *Can the tower be used in a freestanding application?*

A: The 12"W tower is not recommended for freestanding applications. If the specification requires it, a request can be submitted to the Tailored Products Group for a tower meeting these requirements.

Q: *What are the adjustment increments of the optional shelf?*

A: The shelf is adjustable in ½" increments.

Q: *When will the tower be available in CAP 20/20 for electronic specifying?*

A: It will be included in the May CD update for 2015.
